

LIVE CAPTURE TRAP IN USE

Please be aware that a live capture trap will be set at night on a private property in your area. The lures used are targeted to attract feral & stray cats. This is not a kill trap, and is designed to capture the animal alive. The trap will only be set at night and checked first thing in the morning. If you have a cat, we recommend you keep them inside at night while the trap is set.

ANY CONCERNS?

Please contact the trapper for any immediate concerns. For general queries, please contact the Pest Trap Library at predatorfreebop@gmail.com.
