

POSSUM TRAPS IN USE

Please be aware that possum traps will be set at night on a private property in your area. The lures used are specific for attracting possums only, and should not attract any other non-targeted animals. For certainty, if you have a cat, we recommend you keep them inside at night while the traps are set.

ANY CONCERNS?

Please contact the trapper for any immediate concerns. For general queries, please contact the Pest Trap Library at predatorfreebop@gmail.com
